Dear Sirs,

Re: Starworld Hotel & Casino at Lot A3 (A2/1), Nape Macau

Meinhardt (C&S) Ltd has been appointed by Galaxy Casino S.A. as the geotechnical & structural consultant for the proposed Galaxy StarWorld Hotel located at Lot A3 (A2/1), Nape, Macau.

The foundation and superstructure design of the proposed Galaxy StarWorld Hotel comply with both the International Standard and the Macau's Standard. The full design report including design calculations and drawings was vetted by the local structural consultant – Civil Engineering Consultants Co. Limited to ensure compliance with Macau's codes and requirements and the same submitted to DSSOPT. Both the foundation and superstructure design have been approved by DSSOPT.

The foundation and superstructure works are constructed in accordance with the approved drawings and supervised by the resident engineers and local Technical Director – Mr. Leong Man Io. All piling load tests, concrete cube test and steel tensile tests were carried out by macao authorized laboratory LECM and the test results are found satisfactory.

Therefore, we confirm that the building is structurally safe and in a good condition.

Yours faithfully
MEINHARDT (C&S) LTD
